### **Career Objective**

To leverage my expertise in software development, problem-solving, and system design to build scalable, efficient, and user-centric solutions. I aim to contribute to innovative projects that enhance business performance and customer experience, while continuously expanding my technical skills and embracing emerging technologies in a collaborative and agile environment.

### **Work Experience**

#### **Pioneer E Solution Pvt. Ltd. Gurgaon**

[1<sup>st</sup> August 2024 to Present]

Software Engineer

#### **Nippon Data Systems Ltd. Noida**

[10<sup>th</sup> October 2022 to 31<sup>st</sup> March 2024]

Software Engineer

#### **Techment Technology, Bhilai**

[1<sup>ST</sup> March 2022 to 30 August 2022]

Software Engineer

#### **Utility Powertech Pvt. Ltd. (Joint Venture of NTPC & Reliance)**

[Aug 2019 – Aug 2021]

IT Resource Person

#### **Shri Shankaracharya Institute of Medical Science (SSIMS), Bhilai**

[May 2019 – Aug 2019]

IT Assistant

#### **Siddhartha Infosoft Pvt. Ltd, Raipur**

[Apr 2018 – Apr 2019]

Web Developer

#### **Shri Ganesha Global Gulal Pvt. Ltd., Raipur**

[Jul 2017 – Apr 2018]

Digital Marketing Executive

#### **Jhooniya Software , Bhilai**

[Sep 2016 - Apr 2018]

Offshore Manager

#### **Chhattisgarh Swami Vivekanand Technical University (CSVТУ)**

[May 2008 – Apr 2016]

Programmer

#### **YashSoftech, Bhilai**

[Nov 2007 - May 2008]

Trainee Developer

## **PROJECT EXPERIENCE**

### **1. MIS for Loan Recovery System**

|              |   |                                                      |
|--------------|---|------------------------------------------------------|
| Company Name | : | Chhattisgarh Rajya Antyavasai Vitta Evam Vikas Nigam |
| Duration     | : | October 2022 to Till Now                             |
| Role         | : | Software Engineer                                    |
| Front End    | : | Bootstrap, Java Scrip, JQuery, HTML                  |
| Backend      | : | Asp.Net (C#), MS SQL (2019)                          |

#### **Key Contributions:**

##### **System Architecture & Development:**

- Designed and implemented core modules for loan sanctioning, ledger management, and recovery tracking.
- Developed responsive user interfaces using Bootstrap and jQuery for seamless user experience.

##### **Database Engineering:**

- Executed complex SQL operations (DDL, DML, TCL) for data manipulation and integrity.
- Migrated and validated historical loan data from physical records into the digital platform.

##### **Reporting & Visualization:**

- Integrated RDLC reports for dynamic data visualization and stakeholder reporting.

##### **Validation & Testing:**

- Applied multi-layered validation (client-side, server-side, third-party) to ensure data accuracy.
- Conducted manual and unit testing; maintained detailed test cases for QA compliance.

##### **Deployment & Infrastructure:**

- Hosted the application on cloud infrastructure, ensuring scalability and uptime.
- Managed software, database, and network configurations for optimal performance.

##### **Stakeholder Coordination:**

- Liaised with district-level operators and CEOs to ensure smooth adoption and operation of the system.
- Provided technical support and training to field users across multiple districts

### **2. ARC GIS Land Record Management Application**

|              |   |                                   |
|--------------|---|-----------------------------------|
| Company Name | : | Techment Technology Pvt. Ltd      |
| Duration     | : | March 2022 to August 2022         |
| Role         | : | Software Engineer                 |
| Front End    | : | Java Scrip, JQuery, HTML          |
| Backend      | : | MS SQL (2019), ASP .Net Core, WPF |

Description: A comprehensive land parcel record management application was developed for a US-based project using **ASP.NET Core**. The system facilitates:

- **New Parcel Creation:** Enables registration and documentation of newly defined land parcels.
- **Parcel Splitting:** Supports division of existing parcels into multiple sub-units with traceable lineage and ownership details.
- **Digital Record Management:** Ensures secure, scalable, and efficient handling of land records, replacing legacy manual processes.

**Key Contributions:**

- Designed and developed core modules.
- Developed user interfaces for web application.
- Implemented SQL queries using DDL, DML, and TCL operations.
- Integrated ARC GIS within ASP.NET modules for data visualization.
- Applied client-side, server-side, and third-party validation controls to ensure data integrity.
- Created technical documentation including wireframes, ER diagrams, and data flow diagrams.

This solution streamlines land administration workflows, enhances data integrity, and supports future integration with GIS and property taxation modules.

### **3. SAFETY MANAGEMENT SYSTEM**

|              |   |                                                                |
|--------------|---|----------------------------------------------------------------|
| Company Name | : | Utility Powertech Pvt. Ltd. (Joint Venture of NTPC & Reliance) |
| Duration     | : | August 2019 to August 2021                                     |
| Role         | : | IT RESOURCE PERSON                                             |
| Front End    | : | Java Scrip, HTML                                               |
| Backend      | : | MS SQL (2019), ASP .Net C#, Web Services                       |

Description: NSPCL, a central government power generation organization, operates large-scale plants where employees work in rotational shifts. Given the nature of operations, **safety is a critical priority** to ensure uninterrupted and secure functioning of the plant.

To enhance safety oversight:

- A **web-based application** has been deployed allowing plant personnel to **capture and upload images or videos** of any observed safety hazards, incidents, or potential threats within the plant premises.
- These submissions are **monitored by designated safety officers**, who assess the reported content and initiate **appropriate precautionary or corrective actions**.
- This proactive system enables **real-time hazard reporting**, improves situational awareness, and strengthens the overall safety culture across the facility.

The integration of digital tools into safety workflows reflects NSPCL's commitment to leveraging technology for operational excellence and workforce protection.

**Key Contributions:**

- Designed and developed core modules including SMS integration.
- Developed user interfaces for web application.

- Implemented SQL queries using DDL, DML, and TCL operations.
- Integrated RDLC reports within ASP.NET modules for data visualization.
- Applied client-side, server-side, and third-party validation controls to ensure data integrity.
- Utilized Ajax Control Toolkit for enhanced user experience and validation.
- Created technical documentation including wireframes, ER diagrams, and data flow diagrams.
- Conducted manual and unit testing, maintained test cases for quality assurance.

#### 4. HOSPITAL MANAGEMENT SYSTEM

|              |   |                                                                  |
|--------------|---|------------------------------------------------------------------|
| Company Name | : | Shri Shankaracharya Institute of Medical Science (SSIMS), Bhilai |
| Duration     | : | May 2019 to August 2019                                          |
| Role         | : | IT ASSISTANCE                                                    |
| Front End    | : | HTML, JQuery, Javascripts                                        |
| Backend      | : | MS SQL (2019), ASP .Net C#                                       |

Description: **SSIMS** is a private hospital that experiences a high volume of patient visits on a regular basis. To streamline operations and enhance service delivery, the hospital management has implemented a **web-based Hospital Management System (HMS)**. This advanced application facilitates the efficient storage and management of a large number of patient records, including detailed medical histories, enabling seamless access, improved coordination, and better healthcare outcomes.

#### 5. SHAALAKOSH – Unified Digital System for Schools

|          |   |                                          |
|----------|---|------------------------------------------|
| Company  | : | Siddharth Infosoft (OPC) Private Limited |
| Duration | : | May 2017 – April 2019                    |
| Role     | : | Software Developer                       |

Technologies Used:

- Front End: HTML, CSS, JavaScript
- Back End: ASP.NET, SQL Server
- Reporting: RDLC Reports
- Tools: Visual Studio, Ajax Control Toolkit

Project Overview:

Shaalakosh is a comprehensive digital platform designed to unify school education data across Chhattisgarh. It serves lakhs of students, teachers, and schools through two primary interfaces: a custom Android device and a web portal. The system collects and analyzes data related to government schools, students, teachers, and available facilities, helping the government identify areas requiring attention and recognize well-performing regions.

**Key Contributions:**

- Designed and developed core modules including Student Incentives, Student Attendance, Teacher Attendance, UDISE, Teacher Appointment, and Leave Management.
- Developed user interfaces for web application.
- Implemented SQL queries using DDL, DML, and TCL operations.
- Integrated RDLC reports within ASP.NET modules for data visualization.
- Applied client-side, server-side, and third-party validation controls to ensure data integrity.
- Utilized Ajax Control Toolkit for enhanced user experience and validation.
- Created technical documentation including wireframes, ER diagrams, and data flow diagrams.
- Conducted manual and unit testing, maintained test cases for quality assurance.

## 6. DIGITAL MARKETING

Company : Shri Ganesha Global Gulal Pvt. Ltd., Raipur

Duration : Jul 2017 – Apr 2018

Role : Digital Marketing Executive

Front End : Facebook, Whatsapp, Instagram

Description : Shri Ganesha Global Gulal Pvt. Ltd. is a globally recognized manufacturer of organic colours, specializing in **gulal**, **rangoli**, and a variety of eco-friendly color products used during festivals and cultural events.

### Key Contributions:

- Maintained and regularly updated the company's official website to ensure accurate product listings and brand consistency.
- Executed digital marketing strategies across platforms such as **Facebook**, **Instagram**, and **WhatsApp** to generate leads and promote product visibility.
- Designed and launched periodic **promotional campaigns** tailored to seasonal festivals and market trends to boost customer engagement and sales.

## 7. University Management System

Company : Chhattisgarh Swami Vivekanand Technical University(CSVTU), Bhilai

Duration : May 2007 – April 2016

Role : Programmer

### Technologies Used:

- Front End: HTML, CSS, JavaScript
- Back End: VB.NET, SQL Server

- Reporting: RDLC Reports
- Tools: Visual Studio, Ajax Control Toolkit

Description : CSVTU is a state government technical university established in 2005, catering to lakhs of students across diverse academic streams including BE, Diploma, B.Pharm, M.Pharm, ME, M.Tech, and Ph.D. programs. The university is responsible for the seamless execution of core academic operations such as student enrollment, examinations, paper valuation, result declaration, and degree distribution.

#### Key Contributions:

- Maintained and regularly updated the university's official website to ensure timely and accurate dissemination of information. Executed comprehensive student examination result processing, ensuring accuracy, consistency, and timely publication across all academic programs.
- Maintained and managed a large-scale university student database, supporting secure storage, efficient retrieval, and seamless integration with examination and result modules.
- Executed and modified the University Student Management Software to align with evolving academic and administrative requirements.
- Managed and maintained critical IT infrastructure including hardware, firewall, network systems, and servers.
- Designed and generated periodic reports for university management, state government departments, and other official stakeholders.

#### 8. Real Estate Management

Company : YeshSofttech, Bhilai

Duration : Nov 2007 – April 2008

Role : Trainee Web Developer

#### Technologies Used:

- **Frontend:** HTML, CSS, JavaScript
- **Backend:** VB.NET, SQL Server
- **Tools:** Visual Studio

#### Project Overview:

Contributed to the development of a real estate web application for a startup founded by young IT graduates. The platform enabled users to search for residential properties with intuitive filtering and categorization.

#### Key Contributions:

- Developed core modules for property listing and search functionality.
- Implemented **location-based filtering** to allow users to search homes by geographic area.
- Enabled categorization of listings into **new and resale properties** for better user navigation.

- Participated in both frontend and backend development, gaining hands-on experience in full-stack web technologies.
- Collaborated in an agile, startup environment, contributing to design discussions and iterative development cycles.

### **EDUCATION SUMMARY**

- MBA (HR) from IGNOU in 2018
- MCA from PRSU, Raipur (C.G.) in 2007
- BCA from PRSU, Raipur (C.G.) in 2005

### **Technical Skills:**

- Programming Language : C#, VB.
- Front End : Html, CSS, JavaScript, JQuery, Bootstrap
- Web Technologies : Vb.Net, Asp.Net,MVC, Web Api, Angular, ReactJs
- Database : Sql Server, Oracle.
- Operating System : Windows 7, Windows 10, Windows 11
- IDE : Visual Studio 2008 and all higher version, VS Code
- Cloud Services : Microsoft Azure Repository

### **PERSONAL DETAILS**

- Name : Tuman Lal Sahu
- D.O.B : 13/08/1980
- Father's Name : Mr. R. D. Sahu
- Mother's Name : Mrs. Shail Devi Sahu
- Marrital Status : Married
- Hobbies : Listen to Music, Singing, Exploring New Technology
- Address : Tatibandh, Raipur(CG).
- Language : Hindi, English, Chhattisgarhi.

Place: Raipur (C.G)

Date:

Tuman Lal Sahu
