Professional Summary

A versatile Full-Stack Developer specializing in building robust applications with **Java Spring Boot, React, Android, and REST APIs**. Brings proven experience in designing, developing, and deploying secure and scalable solutions for diverse domains. Eager to contribute technical expertise and problem-solving skills to a challenging software development role.

Education: -

Master of Computer Application (MCA)

Pt. Ravishankar Shukla University

📍 Raipur | 📅 Aug 2023 – 2025

Bachelor of Computer Application (BCA)

Pragati College, Central Avenue Choubey Colony Raipur

📍 Raipur | 📅 Aug 2019 – 2022

Technical Skills

- **Languages:** Java, HTML, CSS, JavaScript, C, C++ C#, Python, SQL
- **Frontend & Backend:** React, React Native, Tailwind CSS, Next.js, Node.js, Spring Boot.
- **Databases:** MySQL, MongoDB, Firebase.
- **Tools & Concepts:** Git, GitHub, Postman, REST APIs, Razorpay Integration, VS Code, IntelliJ IDEA, Android Studio,

Extracurricular

- **OS & Hardware:** Proficient in Windows OS installation, configuration, and troubleshooting.
 - **Data Recovery:** Skilled in data recovery from corrupted or failed hard disk drives.
 - **System Installation:** Experienced in the setup and installation of CCTV surveillance systems.
-

Relevant Coursework

Data Structures & Algorithms, RDBMS, .NET Framework (C#), Artificial Intelligence, Cybersecurity, Web Development, Advanced Computer Architecture, Data Mining, Big Data Analytics, Computer Networks

Internship Experience: -

CHIPS (Chhattisgarh Infotech Promotion Society) – Web and App Developer Intern

📅 May 2025 – Present 📍 Raipur, C.G.

Working on the Aadhaar Grievance Redressal Portal (web and app version) for secure, role-based grievance resolution for CHIPS.

Insyscraft – Web Developer Intern

📅 Feb 2025 – July 📍 Raipur, C.G.

Built the 'SkillCrafters' e-learning website, creating dashboards and features for students, mentors, and admins to manage courses, assignments, and tests.

Projects: -

Aadhaar Grievance Redressal Portal

- **Objective:** Developed a secure portal for grievance registration with multi-role access (CHIPS, UIDAI, EDM, LSK).
- **Key Features:**
 - Implemented grievance registration, approval, resolution, reopening, slip generation, and status tracking.
 - Designed a district-level hierarchy where each EDM manages multiple LSKs.
 - Secured the application with JWT-based authentication.
- **Technologies Used:** React.js, Spring Boot, MySQL, JWT.

SkillCrafters - Learning Management System

- **Objective:** To develop a comprehensive e-learning platform with role-based access for students, mentors, and administrators. The system features course enrollment with secure payment processing, modules for managing assignments, tests, and study materials, and real-time notifications to enhance user engagement.
- **Technologies Used:** Next.js, React.js, Node.js, MongoDB, JWT, bcrypt, Razorpay, Cloudinary.

Eventify – Full-Stack Event Management Platform (BCA Major Project)

- Architected a complete event management application featuring a public-facing website and a secure admin portal using **Next.js and MongoDB**.
- Implemented JWT-based authentication for the admin panel, enabling secure CRUD operations for events, user bookings, blogs, and other dynamic site content.
- Designed a user-centric booking system with mock payment options and a real-time booking status tracking feature for users.

DMSApp – Document Management System (Mobile App)

- Developed a cross-platform mobile application using **React Native** for secure document uploading, searching, and management.
- Implemented OTP-based user authentication and token-based API authorization for secure access to document management features.
- Built features for document uploading with metadata tagging, as well as a search screen with date and tag-based filtering.

Assignment Summation App (MCA Mini Project)

- Cross-platform mobile app for managing academic scores
- Native Android app built with **Java in Android Studio** and **Firebase**
- Allowed students to upload assignment PDFs and view submission status
- Faculty panel to manage and review submissions in real time
- Implemented using **Firebase Auth**, Firestore, and storage with clean UI

Certifications & Achievements

- Certified in **HTML5, Python, Flask Framework**
- Completed **Full-Stack Web Development Bootcamp**

Strengths:

- Problem-Solving & Debugging
- Team Collaboration
- Clear Communication
- Time Management
- Fast Learning & Adaptability
- UI/UX Awareness

Declaration

"I hereby declare that all the statements and information provided in this resume are true, complete, and correct to the best of my knowledge and belief. I am prepared to furnish supporting documents and references to validate my credentials as required."
